Test results and evaluations

GEDORE Werkzeugfabrik GmbH & Co. KG, D – 42899 Remscheid

Application field

Pre-positioning (skidding) thin wood. The handguard is advantageous during occasional utilization as a cant hook.

Test item	Test results
Handling	Good to very good ergonomic handles. Hook and tong geometry enable safe loading.
Ergonomics	Timber can be picked up safely.
Durability	Material quality and workmanship is good. No damages during testing with a test load of 1600 N.
Work safety	Operational limits must be observed for ergonomic reasons.

Design

Timber tong made of powder-coated quality steel with riveted but adjustable screw joints.

Technical specifications

Total length (closed)	295 mm
Max. opening	175 mm
Handle length	140 mm
Handle profile	ø 32 mm
Weight	500 g

In the field of measurement tolerances, the timber tong 185 mm with cork handle – art.-no. OX 53-0000 is still manufactured unchanged.
