Safety Warnings for Hose Clamps

1. Intended Use
This hose clamp is designed to keep hoses in order and attached. It must not be used for any purpose other than its intended use.
2. Inspection Before Use
Always inspect the hose clamp before use. Do not use if the product shows signs of wear, damage, or degradation.
3. Installation Precautions
 - Ensure proper installation as per the provided instructions. Incorrect installation may compromise the safety and effectiveness of the product.
 - Do not use tools or methods that may damage the hose clamp during installation.
4. Temperature Limits

- Verify that the product is compatible with the operating temperature.
 - Exceeding these limits may result in failure, posing safety risks.
5. Environmental Exposure
- Protect the product from exposure to aggressive chemicals, UV radiation, or conditions beyond its specified resistance capabilities.
 - Contact with inappropriate substances may lead to degradation.
6. Regular Maintenance
- Periodically inspect the hose clamp for wear, damage, or loose fittings. Replace immediately if any issues are detected.
 - Failure to perform regular maintenance may lead to safety hazards.
7. Children and Unauthorized Personnel
- Keep the product away from children and unauthorized personnel.
 - Misuse or tampering may result in injuries or reduced product effectiveness.
8. Emergency Situations
- In case of product failure, immediately cease use and replace the hose clamp.
 - Do not attempt repairs; use only certified replacement parts or contact the manufacturer.
