## PRODUCT INFORMATION

**Product name:** KOX Forestry Jacket Stretch Elch 2.0 Red/Yellow

**Article number:** XX71420

**Product category:** Textiles, clothing and footwear

**Product description:** The KOX Stretch Elk 2.0 forestry jacket, made of highly elastic Drykeep 4-way stretch with Coolmax content, offers optimal freedom of movement and breathability. Underarm ventilation, back collars and adjustable sleeve ends ensure comfortable temperature regulation, while padded, water-repellent Cordura shoulders provide the necessary robustness. The practical mobile phone pocket on the upper arm allows quick access and protects the device at the same time. Material outer fabric: 60% polyester, 30% polyester Coolmax, 10% elastane Lining: 100% polyester

**Warnings / Warning icons:** no cut-resistant jacket Signal colours only offer increased visibility in daylight. Additional lighting required in the dark. Jacket is water-repellent, but not completely waterproof. Use more suitable clothing for longer work in the rain. This jacket does not provide protection from heat and fire. Keep away from open flames and high temperatures. Wear only in the appropriate size to ensure protection and freedom of movement. Jackets that are too tight or wide can reduce the protective effect. Clean only according to the manufacturer's instructions. Improper care can impair the protective effect

**Test standards/certifications:** KWF certified

**Washing instructions/wash icons:**
