PRODUCT INFORMATION

Product name: KOX Forestry Jacket Vento 3.0 Green/Orange

Article number: XX71426

Product category: Textiles, clothing and footwear

Product description: The KOX Vento 3.0 forestry jacket offers budget-conscious forestry workers a modern design with practical features such as ventilation in the chest area and three-way adjustable cuffs for individual air supply. Reflective elements on the front and back provide visibility, and the numerous closable pockets offer space for accessories. In combination with the KOX Vento 3.0 cut protection trousers, the result is a professional and functional outfit for forestry use. Material outer fabric: 100% polyester Lining: 100% polyester

Warnings / Warning icons: No cut-resistant jacket. Signal colours only offer increased visibility in daylight. Additional lighting required in the dark. Jacket is water-repellent, but not completely waterproof. Use more suitable clothing for longer work in the rain. This jacket does not provide protection from heat and fire. Keep away from open flames and high temperatures. Wear only in the appropriate size to ensure protection and freedom of movement. Jackets that are too tight or wide can reduce the protective effect. Clean only according to the manufacturer's instructions. Improper care can impair the protective effect.

Test standards/certifications: KWF certified
