PRODUCT INFORMATION

Product name: KOX AQUATEX 2.0 RAIN JACKET RED/YELLOW

Article number: XX72409

Product category: Textiles, clothing and footwear

Product description: The KOX Aquatex 2.0 rain jacket offers reliable moisture protection and breathability for versatile use in the rain. With its durable outer material, sporty fit and high proportion of warning colours, it ensures the best visibility even in bad weather and in dense vegetation. The proven KOX quality meets modern design for optimal comfort and protection. Material outer fabric: 100 % polyester

Warnings / Warning icons: no cut-resistant jacket Signal colours only offer increased visibility in daylight. Additional lighting required in the dark. Jacket is water-repellent, but not completely waterproof. Use more suitable clothing for longer work in the rain. This jacket does not provide protection from heat and fire. Keep away from open flames and high temperatures. Wear only in the appropriate size to ensure protection and freedom of movement. Jackets that are too tight or wide can reduce the protective effect. Clean only according to the manufacturer's instructions. Improper care can impair the protective effect

Test standards/certifications:

Water Contact Resistance EN 343:2019 Klasse 3

Water vapor permeability EN 343:2019 Klasse 3
