PRODUCT INFORMATION

Product name: KOX GRIP RED GLOVES

Article number: XX75314

Product category: Textiles, clothing and footwear

Product description: The KOX Grip forestry gloves owe their special wearing comfort not least to the perfect fit thanks to a new layered cut with wing thumb. The backhand of the work gloves is made of close-fitting bi-elastic spandex and the palm is made of grain leather with a reinforcement of turned grain leather. This mixture of good grip, comfort and robust leather make the KOX Grip chainsaw gloves perfect all-rounders for forestry work. Made of 100% polyester with integrated leather pulse protection.

Warnings / Warning icons: no cut-resistant gloves. protection function only for specific risks. Use appropriate gloves for the task at hand. Keep away from open flames and high temperatures. Wear only in the appropriate size. Gloves that are too tight or too wide can impair the protective function and increase the risk of accidents.

Test standards/certifications: EN 388 2122X, EN 420
