PRODUCT INFORMATION

Product name: KOX FUNCTIONAL JACKET ISO O/B

Article number: XX76120

Product category: Textiles, clothing and footwear

Product description: The KOX functional jacket Iso is ideal as a second layer over the functional shirt in cooler temperatures. With a soft waffle fleece structure on the inside, it ensures breathability and prevents overheating, while the elastane content offers high stretch and freedom of movement. A robust trim reinforces the shoulder area, and the high stand-up collar with chin guard and the elastic hem on the collar, sleeves and waistband ensure an optimal fit. Material: Outer fabric: 92% polyester, 8% elastane / Shoulder trim: 100% polyester

Warnings / Warning icons: no cut-resistant jacket. Signal colours only offer increased visibility in daylight. Additional lighting required in the dark. Jacket is water-repellent, but not completely waterproof. Use more suitable clothing for longer work in the rain. This jacket does not provide protection from heat and fire. Keep away from open flames and high temperatures. Wear only in the appropriate size to ensure protection and freedom of movement. Jackets that are too tight or wide can reduce the protective effect. Clean only according to the manufacturer's instructions. Improper care can impair the protective effect.

Test standards/certifications: Öko-Tex Standard 100, KWF certified
