## PRODUCT INFORMATION

**Product name:** KOX Cultivator with Ash Wood Handle

**Article number:** XXKOX56914

**Product category:** Construction and DIY Products

### Product description:

The KOX Cultivator is a durable hand tool designed for targeted loosening and aerating of soil. The sturdy steel tines penetrate the ground reliably and are ideal for preparing planting areas. The long, oiled ash wood handle ensures an ergonomic working posture and feels comfortable in the hand. Thanks to its low overall weight, the cultivator is easy to handle. An integrated hanging hole makes it convenient to store in a space-saving way.

### Warnings / Warning icons:

Use caution when handling the tool to avoid cuts. Always wear suitable protective gloves and sturdy footwear while using it. Keep the mattock out of reach of children. Ensure a stable body posture and avoid working overhead to prevent accidents.
